

NeuroCheck 6.2 Software Training

(classroom / Lehenhof)

During our two-day software training, participants become familiar with the comprehensive image processing functionality within the NeuroCheck software and the manifold ways to utilize it for integration into production processes and quality assurance systems. At our training site at the Lehenhof in Fellbach-Schmiden, we've created optimal conditions for flexible, hands-on learning in a modern and attractive environment.

Learn from experts - combine theory and practice

Topics

- NeuroCheck operation modes:
Software operation in automatic and manual mode, hardware / cam-era integration, live mode, reference images, process view design, debugging facilities
- NeuroCheck vision functions:
Presence verification, binary analysis, pattern recognition, Template Matching, gauging, positioning
- NeuroCheck check routine design:
Single checks / structuring, examples and exercises (typical inspection tasks) using training notebooks

Target customers

- Vision system process managers

General training conditions

Communication between customers and NeuroCheck is always in writing by e-mail training@neurocheck.com. This applies in particular to registrations, orders, appointment postponements / changes / cancellations. A training registration or order by e-mail is binding. The customer will then receive a written order confirmation. NeuroCheck GmbH may cancel appointments up to 14 days in advance due to insufficient number of participants. The cancellation of a training participation on the part of the participant is free of charge if it is made in writing no later than 14 days before the start of the training. In case of cancellation up to 48 hours before the start of the training, we charge half of the training fee. In the event of cancellation at a later time or non-attendance, the full training fee will be charged.

Directions to our training center

Training center Lehenhof HOTEL HIRSCH, Fellbacher Straße 2-6 / Kanalstraße 1-7, D-70736 Fellbach-Schmidn
